

Katana Australian Equity Fund

The Katana Australian Equity Fund (KAEF) is a long-only, actively managed investment fund that invests in a range of Australian listed companies.

Katana focuses on generating returns through unique insights into investment ideas while striving to act in unison with the market. Flexibility within the boundaries of our risk framework and rigorous investment process allows us to maximise investor returns without constraint on size, sector or thematic.

Our fund has an overarching preoccupation with protecting your investment. We are comfortable to remain weighted in cash for extended periods until the right opportunities arise.

Since Katana/KAEF were established, the All Ordinaries Index has increased by only **26.3%**.

The Katana Australian Equity Fund (and its predecessor) generated a total investment return of **151.7%** since inception in December 2005. This is a significant out-performance.

ALL ORDINARIES INDEX

The Katana Australian Equity Fund (KAEF) was established in April 2011. Whilst relatively new, KAEF replicates the investment philosophy of the Katana Capital Ltd fund, simply with a different structure – the convenience of a traditional managed fund structure.

Wouldn't you feel better knowing that your money is being managed by a team of professional investors with 100+ years of combined investment experience?

Consistent and Strong Out-Performance

Since inception, KAEF has out-performed the All Ords Index by **6.40%** per annum net of fees.

This is a significant level of out-performance, even as the market rises and falls, since inception over a decade ago.
