Katana Profile

Fund Parameters

Portfolio Overview

- **Long only**
- **ASX** listed securities
- **Benchmark 'Unaware'** – i.e. flexibility to maximise returns without constraints on market capitalisation, sector or theme.

By removing restrictions on size, sector and weightings, we enable each investment to be assessed on its merit.

Top Down Macro Overlay with Bottom Up Stock Analysis

- Economic cycle (timing) decisions
- Asset allocation - preparedness to move to, and maintain a cash position
- Sector allocation – portfolio based on prospectivity not sector weighting
- Stock selection and allocation

Portfolio Parameters

- **55-65 individual stock positions**
- Average position **size 1%–5%**, with a pre-disposition towards holding a greater number of smaller positions
- Mandated maximum position sizes based upon market capitalization and liquidity
- Cash Position mandate range is 0 – 80%; historically 15%-35% but **strategic shift to average <5% during FY24 and moving forward**

Generally towards the upper end of this range and has been as high as 50% of funds under management

Achieving high returns with a high cash balance reduces risk through the cycle

- Significant value added with stock positions outside ASX100

Thematic exposure achieved through ASX100, but additional alpha derived through detailed bottom-up analysis of ex-100

- **No gearing or shorting** applied in the portfolio

“Performance. Process. People. Passion.”
